DETAILED ACTION

The amendment filed March 2, 2007 has been entered.

Claims 1 and 10 are currently amended.

Claims 1-10 are examined on the merits.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Election/Restrictions

Claims 11-20 are withdrawn from consideration as non-elected without traverse.

Specification

1. A substitute specification including the claims is required pursuant to 37 CFR 1.125(a) because the originally filed specification has an unacceptably large type font making both the specification and claims extremely hard to read. A substitute specification is required that complies with the suggested font, font size and line spacing set forth in 37 CFR 1.52. Use of Courier, Arial or Times New Roman in a font size of 12, and line spacing of 1 ½ or double spaced is requested.

A substitute specification must not contain new matter. The substitute specification must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by

Art Unit: 1638

being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) and a statement that the substitute specification contains no new matter must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

2. Applicants' argue that electronic filing resulted in the large font and there is no rule preventing the current font or font size, and therefore Applicant will not comply with the Examiner's request. The Examiner maintains the objection to the specification. While the MPEP does not specifically prevent the current font size, the MPEP does specify guidelines for the font to assist in examination of the case. The Examiner again requests that Applicants assist the examination process of their application by providing a specification with the suggested font size and type.

Claim Rejections - 35 USC § 112

The rejection of claims 1-10 under 35 USC 112, second paragraph is withdrawn in view 3. of the amendment of the claims.

Claim Rejections - 35 USC § 102

- 4. Claims 1 and 4-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Lightner et al (US Patent 6,372,965 in IDS) as stated in the last office action.
- 5. Applicants' arguments filed March 2, 2007 have been fully considered but they are not persuasive. Applicants argue that Lightner et al do not teach an increase in total oil level. Applicants argue that Lightner et al only describe changes in relative levels of certain fatty acids

Art Unit: 1638

and therefore does not anticipate the claims. The Examiner maintains that Lightner et al teach the same method that is claimed and that an increase in total oil level would be inherent in the same method.

Claim Rejections - 35 USC § 103

- 6. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lightner et al (US Patent 6,372,965 in IDS), as stated in the last office action.
- 7. Applicants' arguments filed March 2, 2007 have been fully considered but they are not persuasive. Applicants argue that Lightner et al do not teach an increase in total oil level.

 Applicants argue that Lightner et al only describe changes in relative levels of certain fatty acids and does not teach how one might increase total oil level. The Examiner maintains that applicants have not taught method steps that would distinguish their method from the method taught by Lightner et al. The Examiner maintains that Lightner et al teach the same method that is claimed and that an increase in total oil level would be inherent in the same method, and the evidence for non-obviousness should be commensurate with the scope of the claims.

Conclusion

8. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

Application/Control Number: 10/604,708

Art Unit: 1638

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

No claims are allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth F. McElwain whose telephone number is (571) 272-0802. The examiner can normally be reached on increased flex time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anne Marie Grunberg can be reached on (571) 272-0975. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
